Germany Asks For Peace Terms

"Your Hour Has Come"

NEW IRON CHANCELLOR ACCEPTS WILSON'S TERMS

AMSTERDAM, October 5.—The immediate suspension of hostilities has been proposed by the Imperial German Chancellor, Prince Maximilian, in the Reichstag, according to the Berlin correspondent of the Tijd. The entente allies are to be asked to state their terms. The Chancellor's proposal embraced also the dispatch of plenipotentiaries to a neutral place to discuss the question of a league for national arbitration and disarmament.

STOCKHOLM, October 5.—Prince Maximilian of Baden, the new Imperial German Chancellor, is willing to accept President Wilson's fourteen peace conditions, according to reports received from Berlin by circles closely connected with the Foreign Office here, even though this for many reasons may not be thoroughly demonstrated in his statement before the Reichstag.

The first definite hint that a sensational announcement was expected came in a Berlin telegram to the effect that the entire press of Germany and Austria regarded today's event as the "turning point of the war."

While the circumstances preceding and surrounding the peace bid are as yet unreported at the hour of cabling, a strong impression prevails here that the move was virtually forced by Austria-Hungary.

The dual monarchy in Vienna and Berlin, according to dispatches early today, was reported in the throes of excitement bordering on panic. Revolt was said to be threatening. Baron von Hussarek had resigned as Premier, and with him his whole cabinet went out.

Herr Hamarsch, like the Baden prince, a reputed pacifist, was slated to take a Premiership, and his first step was to be to send a message to President Wilson setting forth Austrian-Hungary's conception of the American executive's fourteen peace principles.

In short, everything indicated that Austria would not go back an inch in her determination "to bring about" peace. German threats and promises had been unavailing.

Afraid to repeat her blunder in the case of Bulgaria, whose threats she had taken for bluff, Germany, it is believed, chose the inevitable course of taking the lead in offering peace before she would be entirely deserted by her allies and be isolated, a besieged fortress, with inescapable disaster staring her in the face.

GREAT HUN RETREAT HAS COMMENCED

AMSTERDAM, Oct. 5.—Many messages received here indicate that the Germans are preparing for the immediate evacuation of Laon, Le Fere, Ribemont and the districts behind St. Quentin and Cambrai. Towns in this district are being stripped of everything usable.

It is reported today that the wharves and docks at Bruges have been set afire and the big guns removed from Knocke. Coast defense materials also have been removed from Moerbeke and other points and canal sheds are being burned.

These and other moves of the Germans are regarded as proof of the report of an impending retirement on a large scale.

EXPLOSION DUE TO AN ACCIDENT

NEW YORK, Oct. 5.—"The explosion and fire which wrecked our plant at Morgan, N. J., was purely an accident," T. A. Gillespie, president of the Gillespie Loading company, said today in a statement.

"It was not due to carelessness on the part of any one, and there is no suspicion of German work," the statement continued.

"DOWN WITH GERMANY" SAY AUSTRIAN OFFICIALS

LONDON, Oct. 5.—A veritable riot, accompanied by fist fights, occurred in the Austrian Chamber of Deputies in Vienna yesterday, according to an Exchange Telegraph dispatch reaching here today from Zurich. Sixty deputies took part in the fighting, shouting "down with Germany!"

REPRISALS THREATENED BY THE FRENCH

PARIS, Oct. 5.—Threats by Austria that allied aviators dropping or carrying proclamation would be punished with death has brought a threat of reprisals from the French government. The Austro-Hungarian government has been informed that if French aviators are executed the French authorities will retaliate by inflicting the same penalty in double proportion upon Austrian officers who are prisoners.

The whole of the Flanders ridge is now in the allied [illegible]. The prisoners captured now total 10,500, while 350 cannon and 500 machine guns and trench mortars have been taken.

WITH THE BRITISH ARMY IN FRANCE, Oct. 5.—Great [illegible] are [illegible] streaming up today from the city of Douai and more fires have been started in Cambrai. The Germans also have applied the torch to many villages [illegible] Cambrai [illegible] and [illegible] and smoke [illegible] from the burning [illegible] please this [illegible] [illegible] republicans in Alsace-Lorraine. The Germans blew up the [illegible] they were unable to save and which they did not wish to leave behind.

GENEVA, Switzerland, Oct. 5.—Forty villages in Alsace-Lorraine, from Thann to Colmar, have been evacuated by the civilian population, according to the Democrats. The German authorities the newspaper says, now have ordered the inhabitants of Mulhausen, Alsace and later another group to prepare to leave immediately.

ENTIRE AUSTRIAN CABINET QUITS AND ASKS PEACE

AMSTERDAM, Oct. 5.—Baron von Hussarek, the Austrian Premier, and his entire cabinet, have resigned. News to this effect was received here late tonight.

An exclusive Universal Service dispatch from London Friday night foreshadowed Baron Hussarek's resignation, and said that Herr Hammasch is slated to succeed him. The dispatch added that Hammasch was drafting a message setting forth Austria-Hungary's conception of President Wilson's fourteen peace principles and that this message was to be sent to President Wilson.

4—Guarantees for the reduction of national armaments to the lowest point consistent with domestic safety.

5—Impartial adjustment of all colonial claims based upon the principle that the peoples concerned have equal weight with the interests of the government.

6—The evacuation of all Russian territory and opportunity for Russia's political development.

13—Establishment of an independent Polish state, including territory inhabited by indisputably Polish population, with free access to the sea, and political and economic independence and territorial integrity guaranteed by international covenant.

14—General association of nations under specific covenants for mutual guarantees of political independence and territorial integrity to large and small states alike.

A PEACE PARLEY OF THE NATIONS NOW POSSIBLE

WASHINGTON, Oct. 5.—Senator Gilbert M. Hitchcock, chairman of the senate foreign relations committee, commenting tonight on the dispatch from Amsterdam that Prince Max of Baden new German chancellor, had asked the allies to state their peace terms, said:

"This is a big step forward. It is sufficient to enter for peace by Germany. If formal communication to that effect is sent by Germany to the allies and the United States, we will have to answer them.

"There will be probably a conference of the allies and America immediately for a concerted statement of peace terms. The allies may agree, however, to have the United States speak for all the nations opposed to the central powers.

T.N.T. PLANT EXPLODES 50 KILLED; GREAT LOSS

NEW YORK, Oct. 5.—Explosions, the last one shortly after noon today the worst to date, continued today at Morgan, N. J., where the shell loading plant of the T. A. Gillespie company blew up last night.

It was estimated at the time this dispatch was written that property damage now amounts to $30,000,000.

No accurate list of the casualties have been made. Estimates vary all the way from 50 to 200 dead, with as many as 1000 estimated injured.

Vice President Yatts of the Gillespie company, shortly afternoon, said that 500 men were in the building in which the first explosion occurred. He expressed a belief that not more than 90 of the 500 men were killed, but admitted that he was unable to make a positive statement.

The intermittent explosions this afternoon made it impossible to fight the continually advancing flames. Grave fears are felt for the Oliver and California plants of the Du Pont Powder Company, near Morgan. If these plants were to let go, another great area would be devastated.

GOVERNMENT COMMENCES HARBOR WORK TODAY

Healy-Tibbitts Start Riprapping Tomorrow —Richmond Can Get More Federal Aid If Showing Is Made

The U. S. Government actually commences active work on the Richmond harbor today, the big dredger moving over several of the channel areas the municipal wharf yesterday by The American Dredging company. The channel will soon be dredged out and the mud will fill in the Santa Fe docks and also make new land for factories along the south shoreline.

The Government is spending $100,000 in this particular work, and the city a like sum; and next year the government will spend a similar amount or more, and so on until its $470,000 appropriation is exhausted.

In this connection it is going to be necessary for our Chamber of Commerce, the Richmond Industrial Commission and other like bodies to get busy with another showing to the government as to the Richmond harbor facilities and their need of development in order to be of use for U. S. shipping and this showing should be prepared at once and submitted as soon as possible.

More Harbors Needed

Along with the record breaking production of ships for the war—and after—the Shipping Board has undertaken the task of expanding the port and harbor facilities of the country to meet the needs of the greatest maritime commerce of modern times. This is a case of one truce enterprise begetting another. A doubling, and perhaps trebling, of docks, piers, marine railways, and terminal facilities in general of Atlantic, Gulf and Pacific ports will probably be called for by the swiftly increasing American merchant marine. To provide for the fullest possible service of the ships, once they are released from war traffic, even new ports may become necessary.

The above is the introductory paragraph to a statement by the United States Shipping Board on the prospects of the country as they appear in the preliminary studies which have been made by the recently created Port and Harbors Facilities Commission of the Shipping Board. This commission will shortly have before it complete data of present inadequate facilities. A comprehensive completion which will be used as a basis of study for future developments.

Every port [illegible] ocean-going [illegible] has been [illegible] to [illegible] detailed [illegible] its docks, marine railways, terminal arrangements in general, power plants and other facilities. Preliminary examinations by the commission show that nearly all the larger ports of the country are short of adequate facilities or are facing congestion unless expansion is effected immediately. As to Pacific ports, the federal shipping board states:

"All the Pacific ports, if British shipping history points a moral, face likewise notable expansion of trade with the Orient, and therefore of port requirements far beyond all pre-war plans."

SUNDAY MORNING CHATS

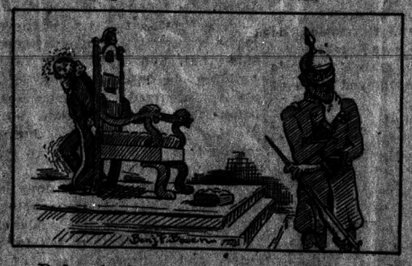
The meeting will now come to order! Also each member of the congregation will kindly step forward and give an account of his or her stewardship for the week just past into history!

Those who have bought or subscribed for a Liberty Bond to help hike the Hun over the Hindenburg line and across the Rhine are entitled to a special prayer and song of praise at this meeting of the Patriotic Sunshine Club, and those who have not, unless they can give a valid excuse, such as sickness or extreme poverty, shall be expelled from the Club and thrown out into the darkness of sin and social ostracisism, where the Devil will get 'em and chuck 'em down the black elevator shaft into the pit of hot lead being kept warm for the especial benefit of Kaiser Bill and other Huns.

* * *

We all have a great deal to be thankful for this beautiful October Sabbath morning, for the army of righteousness has been marching right along every day and night to victory, carrying the banner of Right, of Freedom, of Civilization and of Woodrow Wilson Democracy across the blood-soaked soil of France and into the dark places of sin and sorrow where imps of Satan are being impressed with the ever-living gospel truth that there is certainly a God in Israel!

The victorious armies of the Allies, including that of the U. S. A., have hurled back the enemy continuously for a month and are now almost out of breath trying to catch up with him as he sprints for the tall timber along the River Rhine. He is bleeding profusely from the seat of his pants, that being the only target he has offered now for quite a while, and the Clown Quince has issued a proclamation condemning Christopher Columbus for ever daring to discover America.



Bulgaria has thrown up the white flag: Turkey is about ready to do likewise, and Austria and Hungaria are tottering on the brink of schrapnel from without, air bombs from above and mutiny and rebellion from within. Thrones are tottering, including that of Germany, and the time is ripening for them to crumble and fall all over the enlightened and civilized world. Revolt and mutiny is rife and the hellions who have fattened all their lives upon the blood and sweat and suffering of the people are trembling before an outraged humanity.

* * *

Richmond has another cause of rejoicing just now, and that is the splendid manner in which all of our people have responded to the country's call on the Fourth Liberty Loan. Our quota was fixed at $465,000, which is a pretty stiff quota for a workingman's town of this size, and we raised it in just four days! That is a record that is one to be proud of and hard to beat. And in addition to this, in two more days the amount went up to $500,000, and they are not through yet—it will probably reach $700,000 by the end of the allotted time.

This scribe got interested in helping, or rather helping to help, the Belgian babies just recently, when we read up on the heart-breaking destitution and need among them and their suffering mothers, and so joined hands with the good women who had been trying to do something here, and put a shoulder to the wheel, and got other men to lend a hand to push the cart over a few ruts—and glory be! Instead of sending from $70 to $90 a month, after this Richmond is going to make it $500, as a minimum. We have taken it up with the labor organizations, and the boys are all going to chip in two-bits each a month after this, and do without just that much in cigars or something, as a personal sacrifice, that the mothers and the babies may eat, and may have some warm clothes to keep out the snows and icy blasts of winter. God will certainly bless these big-hearted workers for this act, for Christ especially blessed the little children, and said that of such is the Kingdom of Heaven. As the Great Shepherd took up the little lamb and carried it over the rough places, that the parent sheep would follow, so as we help these hungry babies will we be, in a way, shepherds who carry them over the hard trail, and at the same time assist that whole nation to again get homes and a place wherein to rest its tired and bleeding head and heart.

When it comes to peace terms with Germany, the kaiser and his sons, Hindenburg, Ludenburg and all that bunch of militaristic highbinders who are to blame for it all, must be made to pay a heavy penalty. They should be court-marshalled and shot, for the general benefit of the whole world.

Is is said the Swiss are making the holes in their cheese larger. That's all right so long as they continue to sell it by the pound and the profiteers don't get the opportunity of saying what the price per pound shall be.

The German soldiers are blaming the crown prince for their defeat. They do him an injustice. That little snip has never led them. He just hangs around so as to get the credit of any victory which they may win.

A Chicago man has been arrested for having thirteen wives. Thirteen always was an unlucky number.

Many a sticky fly spoils a healthy appetite, and no pessimist is ever happy unless he is unhappy.

Some would rather fool all of the people all of the time than work for an honest living any of the time.

Some people go around looking for trouble with a candle when a big bright sun is blazing the road to happiness.

Man wants but little here below, and it is lucky it is so for that is what he is going to get.

A Socialist is a fellow who is willing to share your last dollar.

Seems like people we owe mention it oftener than those who owe us.

Don't forget that it does occasionally happen that the other fellow is right.

The Pittsburg Dispatch alludes to him as the Clown Quince.

It is the business of crushing out Kaiserism - the business of restoring peace by victory - - big business indeed!

Uncle Sam & Company - a company that numbers millions of fighters and uncounted millions more of tireless, loyal workers - all putting every ounce of energy into winning the war.

But Uncle Sam & Company is powerless to finish this big undertaking unless we make it OURS in actual fact. We must lend to the limit and then lend some more.

It is your privilege to thrill with the thought that your dollars have gone to make certain the success of this big undertaking.

LETTERS from our boys in the trenches and from the women in canteen and other war work, all bring to us the same message—SEND US NEWS FROM HOME.

World news is all right, but OUR BOYS want NEWS OF THIS TOWN. They want the home newspaper. Publishers are prevented from sending their papers free to anyone, even boys in the service. Consequently a National movement has been started by Col. William Boyce Thompson of New York, who is acting as President of the Home Paper Service of America to give the boys what they are calling for. Every community is joining the movement. Let us see that our boys are not forgotten.

Send to the publisher of this newspaper whatever amount of money you can—5 cents or $50.00. We will publish a list each week of those contributing, and the amounts contributed.

Every cent received will be used to send this paper to our boys at the front. If at the end of the war, there is any surplus, it will be turned over to the local Red Cross Committee.

There is no profit in this to the publisher—even in normal times, subscriptions are not sold at a profit. With war prices prevailing, and the high rate of postage on papers sent to France, our cost will scarcely be covered by our full subscription price.

Remember that over in France, some brave soldier or sailor from this town—perhaps even some splendid woman working within sound of the guns—is depending on you to "KEEP THE HOME LOVE KINDLED."

They are calling to YOU from "Over There"
GIVE WHAT YOU CAN

The editor of the NEWS is sending this paper to quite a list of soldiers from Richmond at his own personal expense but cannot possibly reach all, or even half, of them.

NEW FOOD CARDS WILL BE ISSUED OCTOBER 28

The new "home cards" of the United States food administration, containing the specific program for food conservation during the coming year, will be placed in the homes of California and the nation beginning the week of October 28.

The text of the home cards which will be similar in size and shape to those distributed last year, will not be made public until the campaign of distribution actually begins. It is known, however, that they will contain a resume of the food situation in the allied countries, and will give specific reasons why 5,000,000 tons more staple foods must be saved and shipped this year than last, when 10,000,000 tons were sent abroad.

Plans have been made for the printing of approximately 70,000 cards for circulation in California. The distribution will be accomplished through the offices of the various women county directors of food conservation, and one will be placed in every home by hand.

On receipt of these cards each housewife and every other individual will have a definite program to follow—a program which calls for the daily saving of all kinds of stape foodstuffs in order that the vast supplies needed by our armies and the armies of the allies will be assured so that they may continue on to Berlin and victory.

DUCK SEASON OCT. 16

Local hunters are awaiting with no little impatience the advent of the duck season which opens October 16th. Already the hunters are getting out the old pump guns oiling them up and getting all ready for the slaughter which will begin with daylight on the 16th.

Government After Local Saloons And Bootleggers

At 11 o'clock last night the local police, in conjunction with two military police from the Provost Marshall's department of San Francisco, arrested eight soldiers in Richmond, all in a partially intoxicated condition, and took them to the local jail.

The Federal authorities have been investigating the selling of whisky to soldiers in Richmond, and it is now believed by them that they "have the goods" on a number of local saloons and several rascally bootleggers here who have been the go-between for the saloonkeepers and soldiers and sailors.

The men placed under arrest had quarts of whisky on them, and stated they had paid local bootleggers for it at the rate of $1.25 a quart.

The soldiers would not tell who had bought the liquor at the saloons for them, but they will be taken to San Francisco this morning, and to Camp Fremont, where they came from, and be made to tell all they know about who gets them liquor in Richmond and from which saloons it is procured.

As soon as this information is forthcoming, which it will be by tomorrow, the Federal Government will arrest and punish the Richmond offenders.

That these local bootleggers are in connivance with a number of saloons here is known and punishment is now sure for all offenders.

The News warned these scamps several times, but it did no good. We hope every one of them is sent to the Island for a term of years, and they probably will be.
